## SUMMARY

Full Stack MERN Developer skilled in React.js, Node.js, Express.js, MongoDB, and RESTful APIs. Experienced in developing responsive, role-based web applications with hands-on internship experience. Familiar with PostgreSQL, Git/GitHub, Docker and CI/CD.

## SKILLS

|                  |                                             |
|------------------|---------------------------------------------|
| <b>Languages</b> | C, C++, JavaScript                          |
| <b>Frontend</b>  | HTML5, CSS3, React.js, Redux, Responsive UI |
| <b>Backend</b>   | Node.js, Express.js, RESTful APIs, Postman  |
| <b>Databases</b> | MongoDB, PostgreSQL                         |
| <b>DevOps</b>    | Docker, CI/CD                               |
| <b>Tools</b>     | Git, GitHub, VS Code                        |

## EDUCATION

|                |                                                             |        |
|----------------|-------------------------------------------------------------|--------|
| 2023 – Present | <b>B.Tech (CSE)</b> , Greater Noida Institute of Technology |        |
| 2021           | <b>Class 12th</b> , UP Board                                | 80.8%  |
| 2019           | <b>Class 10th</b> , UP Board                                | 86.66% |

## PROJECTS

### Real Estate Rental Platform – Project MERN

- Developed a full-stack platform for renting and selling properties and furniture.
- Implemented role-based access for customers, property owners, and brokers.
- Built RESTful APIs for listings, authentication, rentals, and user management.
- **Tech Stack:** React.js, Node.js, Express.js, MongoDB, RESTful APIs, JWT.

### Smart Healthcare Ecosystem Platform – Ongoing MERN

- Developing a multi-portal platform connecting citizens, hospitals, doctors, and administrators.
- Implementing role-based authentication, dashboards, emergency services, and healthcare modules.
- Developing RESTful APIs and MongoDB-based data management for healthcare operations.
- **Tech Stack:** React.js, Node.js, Express.js, MongoDB, RESTful APIs, Leaflet.js.

### Smart Waste Management System – Track My Trash 2025

- Developed a waste collection management system with vehicle tracking and role-based modules.
- Integrated **Leaflet.js** for map visualization and location-based tracking.
- Implemented RESTful APIs and MongoDB-based data management.
- **Tech Stack:** MERN, MongoDB, Leaflet.js, RESTful APIs.

## CERTIFICATIONS

- C Programming – IIT Kanpur
- JavaScript – Cisco Networking Academy
- React.js Bootcamp – UpGrad

## ACHIEVEMENTS

- 2nd Rank in Painting Competition – India International Science Festival 2018
- Qualified District Level in Bharat Ko Jano Competition
